Principal's Message

Welcome back to a very full and exciting Term 4. The HSC started successfully last week and will continue until Wednesday 10th November. Year 10 students will sit their School Certificate exams from 8th – 12th November.

We are looking forward to our musical "Little Shop of Horrors" on 24th, 25th, 26th & 27th November. Students and staff are working hard to perfect performances and at this stage it is looking like a fantastic show.

Excursions are a big part of activities in Term 4 and target most students. They will include the Field Day in Orange, Year 11 Camp, Band workshops and MAD concert as well as a range of subject activities. Summer sport has started and our cricket teams are the first to begin their competitions.

In the midst of all this, every day worthwhile and challenging lessons will be taking place for all students. This term is an opportunity for every individual to consolidate their learning and fill in essential gaps in their knowledge and skills. With a positive effort students will set themselves up for the new year.

I look forward to seeing parents at our next P&C meeting on 25th October.

Louise Manwaring
Principal

INDUSTRIAL ARTS & COMPUTING NEWS

Welcome back to the last term for the 2010 calendar year. The Mudgee High Industrial Arts and Computing departments have been very busy this year.

The Industrial Technology and Design and Technology Year 12 students have completed their Major projects and they have been marked. Mr Smith has done a great job with the students in the completion of their Timber projects, spending many hours after school with them to complete projects. Congratulations to all students, as the standard of the finished projects was excellent.

We welcome Mr Gallagher to Mudgee High. Mr Gallagher is a very experienced Industrial Arts teacher from Gosford. He will be replacing Mr Stevens for the rest of the year.

As part of the Trade Training Centre we are currently eagerly awaiting our Metal room upgrade. We expect this to be completed by the end of this term and it will be a most welcome upgrade to bring the metals room up to current standards. A new addition to the room will be a CNC milling machine which will allow students to experience current technology as used by industry.

A reminder to all students working in the Technology Mandatory and Industrial Arts areas that solid enclosed leather or leather like footwear is required for all practical classes.
