

2013 MUDGEE SHOWCASE

Hear Their Stories ~ Celebrate Their Achievements ~ Share Their Journeys

The SHOWCASE is the
culmination of an exciting
personal journey of
discovery! This is your
personal invitation to come
and support our future
community leaders

The Max Potential program in Mudgee, offers 22 weeks of personal leadership development, including individual coaching from community volunteers, to young leaders from schools and the community to help them maximise their potential.

Coaches and participants discover their ability to lead their own lives effectively, to lead others in a team, and to make a difference in their community. This program occurs during the final years of school and beyond. It activates participants to focus on their local community, and on ways that they can work to improve their local community through a leadership project.
