PRINCIPAL'S MESSAGE

Thank you to the parents who provided some input at our recent P&C meeting. You have other opportunities this term to guide the future direction of Mudgee High School. Come along this Thursday 6 November between 3.30 and 6.00 pm, to the next P&C meeting on 23 November and on Thursday 4 December between 4.30 and 6.00 pm. If you can just make one or part of these workshops you are welcome. If you are coming on Thursday this week, you will be allocated to one of the following groups:

Student engagement
Parent involvement
PBL and Student Welfare
Technology
Teacher Professional Learning
Leadership

If you have a preference please phone Wayne Eade before Tuesday 4 November at Mudgee High School on 63721533.

We will be starting by looking at the new planning process the DEC is introducing and sharing our thoughts on where we would like to see Mudgee High School and particularly students in five to ten years – big picture stuff. We will then examine data on the six areas above to identify what are our strengths and areas for improvement which might identify the three main priorities for the new school plan. All parents and carers are invited to make a contribution to sharing what they hope or dream for Mudgee High School by sending in their thoughts in writing if they can't make the workshops. To start you thinking, below is an extract from the Melbourne declaration on the Educational Goals for Young Australians which have been agreed by all Education Ministers across Australia.

Industrial Arts and Computing

Students in Graphics Technology are currently looking at V8 race cars and the livery of logos and signage that adorn them. This discussion and drawing of a race car and associated logos has shown students the real life application of the skills that they are learning. This will culminate with an excursion "Students on Track day" to the Sydney Telstra 500 at Olympic Park on the 5th of December. This excursion last ran 2 years ago when a group of 20 excited Graphic rev heads descended upon the track to talk to the Graphics guys from Brad Jones Racing and look at the designs of the graphics in the Pit area.

Major Projects for 2015 are now in the planning phase in Industrial Technology and Design and Technology. This is an important stage as it sets the stage for a successful HSC result.

This year's Major projects will be on display from the 29th of October until the 6th of November at Mitre 10 and at the stables from the 10th to the 13th of November for the Mudgee High HSC exhibition.

Students have settled into the last term of their VI subjects and some fine projects are well under way in all areas.
